

January 2005

Methapharm is clearly committed to respiratory health in the United States

Changes to Reimbursement Coding for Bronchial Challenge Testing

Effective January 1, 2005, the drug component will be removed from the Practice Expense portion of the procedural codes for Bronchial Challenge Testing.

Instead, a designated Level II code for Provocholine[®] (Methacholine Chloride Powder for Inhalation) should be billed separately under the code J7674. Only FDA approved drugs are eligible for reimbursement under this code.

For further information, please contact your Methapharm Sales Representative at 1.800.287.7686, [email us](#), or click [here for Centers for Medicare & Medicaid Services \(CMS\)](#).
